ABOUT ME

Compute Engineer focused on WEB development systems, containers and DevOps culture evangelist. Self-taught professional with the mission of providing sustainable applications.

As an aviation enthusiast, I used to constantly being driven by the philosophy of the skies: security in the first place, clear communication, redundancy and enjoy the view at FL420.

EXPERIENCE

BE / PYTHON > v2.7 +15 Yrs	BE /DJANGO > v1.4 +15 Yrs	BE /DOCKER > v0.12 +10 Yrs	BE /GNU LINUX > Slack8.3 +20 Yrs	FE /REACT > v17.0 +4 Yrs
FE /NEXT.JS > v12.0 +4 Yrs	FE /EXPO > v51 +2 Yrs	DEVOPS /JENKINS > 2.100 +7 Yrs	DEVOPS /GH (Actions) +4 Yrs	DEVOPS /AWS +5 Yrs

JUN/24 - TODAY

Senior Software Engineer

Loka Inc.

As a Senior Backend Engineer I worked with several startups in order to enable their business. Recently I worked in a Pool analysis system that used AI and Machine Learning to perform sentiment analysis. Also worked in another startup that used AI to generate medical summary HIPAA compliant. At last I'm currently working as a Tech lead for a company that serve a SAAS for scientific research workflows.

Python / OpenAI / FastAPI / SQLAlchemy / PostgreSQL / AWS Lambda / AWS Batch Jobs

DEC/23 - JUN/24

Tech Lead

Mais Todos LTDA

I was responsible for supporting a 5-dev team to ship software to production, on both backend and frontend. Also, acted as a bridge between my team and Engineering management; The App area I was responsible for had a 5M user base, with traffic of 34k requests per day;

Python / Django / Django Ninja / AWS API Gateway / Expo / Geo Django / PostGIS

MAR/22 - SET/23

Senior Backend Engineer - Django

Routable Inc.

I worked at this startup maintaining part of their code that handled connectivity with 3rd party Ledgers. Routable is a startup that offers a payment one stop shop to it's clients.

Python 3.6 / Django / Django Rest Framework

EDUCATION

BEng Compute Engineering
Universidade Potiguar [2012 /2016]
